Gold Enterprise Resource Planning

## Financial Accounting

Keep track of your numbers, liquidity and key metrics to manage your cash, assets and banking.

## Business Intelligence & Reporting

Gain deep insights into all areas of your organization at the push of a button. Simple, clear and fast evaluations – on any device and at any time.

## Purchase & Sales Conditions

Your purchase and sales terms include bonuses, accruals and direct rebates. With agilesFood, all conditions can be managed centrally.

## Claims Management

Claims processing supports you in the processing of value or inventory credits on the purchase and sales side.

## Order Processing (Purchase)

Capture your orders and all purchase-relevant order data quickly and easily – including automatic reading of manifests with a distribution on container or GTIN basis.

## Packing

Packing allows you to sort, reclassify and repackage different items – and all of this in exact batches and with full traceability (according to IFS).

## Sales Assortments & Price Lists

Use this feature to create daily, weekly, and even yearly assortments with the corresponding prices for individual customers or customer groups.

## Producer Billing & Account Sale

This feature calculates all of your revenue, costs, and claims for each batch. Calculate different items/categories in a set period of time, taking into account, for example, discounts, costs and claims as well as pool pricing.

## Also included in the agilesFood standard:

- EDI
- Empties Processing
- Green Dot Settlement
- Batch Tracking
- Digital Quality Management
- Target Costs
- ... and much more!
