Gold Enterprise Resource Planning

Purchase & Sales Conditions

Your purchase and sales terms include bonuses, accruals and direct rebates. With agilesFood, all conditions can be managed centrally.

Claims Management

Claims processing supports you in the processing of value or inventory credits on the purchase and sales side.

Order Processing (Purchase)

Capture your orders and all purchase-relevant order data quickly and easily – including automatic reading of manifests with a distribution on container or GTIN basis.

Financial Accounting

Keep track of your numbers, liquidity and key metrics to manage your cash, assets and banking.

Packing

Packing allows you to sort, reclassify and repackage different items – and all of this in exact batches and with full traceability (according to IFS).

Sales Assortments & Price Lists

Use this feature to create daily, weekly, and even yearly assortments with the corresponding prices for individual customers or customer groups.

Business Intelligence & Reporting

Gain deep insights into all areas of your organization at the push of a button. Simple, clear and fast evaluations - on any device and at any time.

Producer Billing & Account Sale

This feature calculates all of your revenue, costs, and claims for each batch. Calculate different items / categories in a set period of time, taking into account, for example, discounts, costs and claims as well as pool pricing.

Also included in the agilesFood standard:

- EDI
- Empties Processing
- Green Dot Settlement
- Batch Tracking
- ... and much more!
